

## How to Activate GrIDSure

- When you get the email in regards to activating the GrIDSure password, click on the link and this website will appear in your browser.

- Select a pattern from the chart and enter the numbers in the below space. For instance if you chose to do the left column down it would be 6,K,2,X,7,B.
- Make sure the pattern you decide to use is a minimum of 6 values. Each time the grid will appear, it will be different numbers and letters so it is imperative that you remember the pattern and to type it in exactly as it appears.

Whenever a user wishes to authenticate to a protected resource, they are presented with a challenge grid containing random characters. The user then enters the characters in the cells that correspond to their PIP.

- After you have entered the value and click “next”, this screen will appear saying you have been successfully activated

## SafeNet Authentication Service - Self Enrollment

Your token has been successfully activated. Please remember your User ID below.
