

Delineation Of Privileges

Nurse Practitioner Neonatal Privileges

Provider Name:

Privilege			
-----------	--	--	--

Basic Requirements:

1. Currently holds an active RN license in the State of Tennessee as well as an active APN license in the State of Tennessee.
2. A certificate of fitness from the State Board of Nursing for prescriptive rights, in accordance with State Law.
3. A graduate from a graduate degree program or an approved certification program with certification eligibility. Have been prepared as a nurse practitioner in:
 - A nurse practitioner graduate degree program in a nursing program (generally a Doctorate of Nursing) in the applicant's specialty.
 - Completion of an accredited program preparing the APN for one (1) of four (4) recognized APN roles within six (6) population foci: neonatal, pediatrics, family, psych-mental health, adult-gerontology, or women's health.
 - Document their certification by their appropriate certifying board. Certification will be verified prior to recommending appointment to the APP staff. Additionally, maintenance of certification is required and will be verified prior to reappointment to the APP staff. Failure to achieve certification/recertification will result in termination of membership and privileges on the APP staff.
4. If requesting procedures, evidence of training and experience must accompany the application.
5. Evidence of professional liability insurance (\$1/\$3 million coverage).
6. No physical or mental health problems which would prevent the exercise of privileges granted.
7. An agreement with a physician who is currently appointed by and in good standing with the Medical Staff of the Erlanger Health System to supervise the nurse practitioner's practice within the hospital complex.
8. Continuing education requirements will be consistent with the certification/recertification requirements, which may vary with the certification.
9. BLS is REQUIRED for all APPs and must be maintained per RQI standards.
10. ACLS, PALS, NRP per specialty department requirement/job description if working in critical care, cardiology, procedural, surgical or emergency medicine

Definitions of supervision:

- INDIRECT:** The supervising MD/DO is available for consult by phone prior to performing the procedure.
- DIRECT:** The supervising MD/DO is in the building and can come if needed while performing the procedure.
- PRESENT:** The supervising MD/DO is present during the substantiated portion of the procedure EXCEPT in cases of emergency where patient harm would result in the APP not performing the procedure.

Core Nurse Practitioner Privileges:

- Interview to obtain health history
- Record information in patient's medical record
- Perform physical assessments
- Conduct rounds independently of physician but not in lieu of physician
- In consultation with the physician, may discharge the hospitalized patient
- Order and/or schedule (when appropriate) laboratory and/or diagnostic studies
- Evaluate and interpret laboratory and/or diagnostic studies
- Establish medical and/or nursing diagnoses, and implement appropriate plan of care related to diagnoses. **NOTE:** Medical diagnosis and treatment will be per written protocols, which have been agreed upon by both the APP and the supervising physician. A copy of **each** signed protocol will be kept on file in the physician's private office and may be subject to review by the Medical Staff **prior** to implementation. Protocols will be used as guidelines, and will not restrict the use of good judgement concerning proper diagnostics and/or therapy. Protocols may be subject to review at the time of reappointment and may be approved by the appropriate Medical Staff committee(s).
- Collaborate with the supervising physician, as needed, concerning appropriate

Delineation Of Privileges

Nurse Practitioner Neonatal Privileges

Provider Name:

Privilege			
-----------	--	--	--

- diagnostic studies, medical diagnoses and treatment.
- Provide health counseling and guidance.
- Prescribe and regulate medications per written agreement with the appropriate persons/agencies. A copy of any and all written agreements with any and all person/agencies will be kept on file in the physician's private office. **NOTE: Privileges to prescribe and regulate medications will require a certificate of fitness from the State Board of nursing for NP prescriptive rights (obsolete?)**
- Collaborate with and assist the supervising physician in the admission of patients to the hospital. **NOTE: This does not grant the APP the right to independently admit any patient; admission privileges are granted to physicians (defined in the Medical Staff Bylaws as MD, DO and DD)**

Instruct patients regarding, but not limited to, the following:

- Dets and medications
- Exercise/physical therapy
- Prenatal and childcare instructions
- Hospital admission
- Education specific to the disease entity
- Discharge and follow-up instructions

Core Privileges OPT-OUT

Unless specified otherwise requesting Core privileges will grant all privileges above. if you wish or do not qualify for any privileges listed, please list any Core **Privileges** you would like to **Opt-Out** of below:

Special Advanced Procedure Privileges for Nurse Practitioner:

Defined as those approved procedural privileges requiring additional education and training and may be granted only on evidence of initial and ongoing competency.

Abscess drainage

Request for Privilege Not Listed in Advanced Procedure (please list the privilege and provide justification as well as any accompanying certifications or case logs)

(please list the privilege and provide justification as well as any accompanying certifications or case logs)

(please list the privilege and provide justification as well as any accompanying certifications or case logs)

Policy: Erlanger Credentialing committee and MEC must approve all new procedures requested by an Advanced Practice Provider to ensure clinical appropriateness, training, and competency are involved in order to provide superior safe care to the patients of Erlanger Health Systems.

Delineation Of Privileges
Nurse Practitioner Neonatal Privileges

Provider Name:

Privilege					
-----------	--	--	--	--	--

Delineation Of Privileges

Nurse Practitioner Neonatal Privileges

Provider Name:

Privilege			
-----------	--	--	--

Basic Requirements:

1. Currently holds an active RN license in the State of Tennessee as well as an active APN license in the State of Tennessee.
2. A certificate of fitness from the State Board of Nursing for prescriptive rights, in accordance with State Law.
3. A graduate from a graduate degree program or an approved certification program with certification eligibility. Have been prepared as a nurse practitioner in:
 - A nurse practitioner graduate degree program in a nursing program (generally a Doctorate of Nursing) in the applicant's specialty.
 - Completion of an accredited program preparing the APN for one (1) of four (4) recognized APN roles within six (6) population foci: neonatal, pediatrics, family, psych-mental health, adult-gerontology, or women's health.
 - Document their certification by their appropriate certifying board. Certification will be verified prior to recommending appointment to the APP staff. Additionally, maintenance of certification is required and will be verified prior to reappointment to the APP staff. Failure to achieve certification/recertification will result in termination of membership and privileges on the APP staff.
4. If requesting procedures, evidence of training and experience must accompany the application.
5. Evidence of professional liability insurance (\$1/\$3 million coverage).
6. No physical or mental health problems which would prevent the exercise of privileges granted.
7. An agreement with a physician who is currently appointed by and in good standing with the Medical Staff of the Erlanger Health System to supervise the nurse practitioner's practice within the hospital complex.
8. Continuing education requirements will be consistent with the certification/recertification requirements, which may vary with the certification.
9. BLS is REQUIRED for all APPs and must be maintained per RQI standards.
10. ACLS, PALS, NRP per specialty department requirement/job description if working in critical care, cardiology, procedural, surgical or emergency medicine

Definitions of supervision:

- INDIRECT:** The supervising MD/DO is available for consult by phone prior to performing the procedure.
- DIRECT:** The supervising MD/DO is in the building and can come if needed while performing the procedure.
- PRESENT:** The supervising MD/DO is present during the substantiated portion of the procedure EXCEPT in cases of emergency where patient harm would result in the APP not performing the procedure.

Core Nurse Practitioner Privileges:

- Interview to obtain health history
- Record information in patient's medical record
- Perform physical assessments
- Conduct rounds independently of physician but not in lieu of physician
- In consultation with the physician, may discharge the hospitalized patient
- Order and/or schedule (when appropriate) laboratory and/or diagnostic studies
- Evaluate and interpret laboratory and/or diagnostic studies
- Establish medical and/or nursing diagnoses, and implement appropriate plan of care related to diagnoses. **NOTE:** Medical diagnosis and treatment will be per written protocols, which have been agreed upon by both the APP and the supervising physician. A copy of **each** signed protocol will be kept on file in the physician's private office and may be subject to review by the Medical Staff **prior** to implementation. Protocols will be used as guidelines, and will not restrict the use of good judgement concerning proper diagnostics and/or therapy. Protocols may be subject to review at the time of reappointment and may be approved by the appropriate Medical Staff committee(s).
- Collaborate with the supervising physician, as needed, concerning appropriate

Delineation Of Privileges

Nurse Practitioner Neonatal Privileges

Provider Name:

Privilege				
-----------	--	--	--	--

- diagnostic studies, medical diagnoses and treatment.
- Provide health counseling and guidance.
- Prescribe and regulate medications per written agreement with the appropriate persons/agencies. A copy of any and all written agreements with any and all person/agencies will be kept on file in the physician's private office. **NOTE: Privileges to prescribe and regulate medications will require a certificate of fitness from the State Board of nursing for NP prescriptive rights (obsolete?)**
- Collaborate with and assist the supervising physician in the admission of patients to the hospital. **NOTE: This does not grant the APP the right to independently admit any patient; admission privileges are granted to physicians (defined in the Medical Staff Bylaws as MD, DO and DD)**

Instruct patients regarding, but not limited to, the following:

- Dets and medications
- Exercise/physical therapy
- Prenatal and childcare instructions
- Hospital admission
- Education specific to the disease entity
- Discharge and follow-up instructions

Core Privileges OPT-OUT

Unless specified otherwise requesting Core privileges will grant all privileges above. if you wish or do not qualify for any privileges listed, please list any Core **Privileges** you would like to **Opt-Out** of below:

Special Advanced Procedure Privileges for Nurse Practitioner:

Defined as those approved procedural privileges requiring additional education and training and may be granted only on evidence of initial and ongoing competency.
