Provider Name:

Privilege			
Basic Requirements: Associate, Bachelor or Master's Degree required		 	
<ul> <li>Minimal formal training: Completion of an ARC-PA approved program (prior to January 2001, completion of a CAAHEP approved program) that included training in the procedures for which privileges are sought; or demonstrated completion of an accredited PA residency program. Current NCCPA certification. Current licensure to practice as a PA issued by the Tennessee board of medicine. Document their certification by their appropriate certifying board. Certification will be verified prior to recommending appointment to the APP staff. Additionally, maintenance of certification is required and will be verified prior to reappointment to the APP staff. Failure to achieve certification/recertification will result in termination of membership and privileges on the APP staff. If requesting procedures, evidence of training and experience must accompany the application.</li> <li>1. Evidence of professional liability insurance (\$1/\$3 million coverage).</li> <li>2. No physical or mental health problems which would prevent the exercise of privileges granted.</li> <li>3. An agreement with a physician who is currently appointed by and in good standing with the Medical Staff of the Erlanger Health System to supervise the physician assistant's practice within the hospital complex.</li> <li>4. Continuing education requirements will be consistent with the certification/recertification requirements, which may vary with the certification.</li> <li>5. BLS is REQUIRED for all APPs and must be maintained.</li> <li>6. ACLS, PALS, NRP per specialty department requirement/job description if working in critical care, cardiology, procedural, surgical or emergency medicine.</li> </ul>			
Core Physician Assistant Privileges:			
Interview to obtain health history	 	 	
Record information in patient's medical record	 	 	
Perform physical assessments	 	 	
Conduct rounds independently of physician but not in lieu of physician	 	 	
In consultation with the physician, may discharge the hospitalized patient	 	 	
Order and/or schedule (when appropriate) laboratory and/or diagnostic studies	 	 	
Evaluate and interpret laboratory and/or diagnostic studies	 	 	
Establish medical and/or nursing diagnoses, and implement appropriate plan of care related to diagnoses. <b>NOTE:</b> Medical diagnosis and treatment will be per written protocols, which have been agreed upon by both the APP and the supervising physician. A copy of <b>each</b> signed protocol will be kept on file in the physician's private office and may be subject to review by the Medical Staff <b>prior</b> to implementation. Protocols will be used as guidelines, and will not restrict the use of good judgement concerning proper diagnostics and/or therapy. Protocols may be subject to review at the time of reappointment and may be approved by the appropriate Medical Staff committee(s).	 	 	
Collaborate with the supervising physician, as needed, concerning appropriate diagnostic studies, medical diagnoses and treatment.	 	 	
Provide health counseling and guidance.	 	 	
Prescribe and regulate medications per written agreement with the appropriate persons/agencies. A copy of any and all written agreements with any and all person/agencies will be kept on file in the physician's private office. <b>NOTE:</b> Privileges to prescribe and regulate medications will require a certificate of fitness from the State Board of nursing for NP prescriptive rights (obsolete?)	 	 	
Collaborate with and assist the supervising physician in the admission of patients to the hospital. <b>NOTE:</b> This does not grant the APP the right to independently admit any patient; admission privileges are granted to physicians (defined in the Medical Staff Bylaws as MD, DO and DDS).

ERLANGER HEALTH SYSTEM REQUEST FOR NEW ADVANCED PROCEDURE FOR ADVANCED PRACTICE PROVIDERS (APPS)			
<b>Policy:</b> Erlanger Credentialing committee and MEC must approve all new procedures requested by an Advanced Practice Provider to ensure clinical appropriateness, training, and competency are involved in order to provide superior safe care to the patients of Erlanger Health Systems.			
<b>Policy:</b> Erlanger Credentialing committee and MEC must approve all new procedures requested by an Advanced Practice Provider to ensure clinical appropriateness, training, and competency are involved in order to provide superior safe care to the patients of Erlanger Health Systems.			
<ul> <li>Philosophy:</li> <li>1. New scopes of service or procedures must be evaluated by the credentialing committee of EHS and approved by the MEC prior to performing to ensure standardization and competency.</li> <li>2. Advancements in technology require enhancements to current procedures as technologies become more available.</li> <li>3. New procedures are defined as those that require a specific and unique technical approach, or have been practiced outside of EHS at a prior institution and not currently performed by any APP on staff.</li> <li>4. The Chief Medical Officer, Division Chiefs, and Medical Executive Committee (MEC) leaders provide input and recommendations during the consideration process.</li> <li>5. Privileging requirements may take a variety of forms including, but are not limited to, specialized certification or specialty course/technical training, proctoring by physicians who are already credentialed to perform the procedure requested, or manufacturer-required training.</li> </ul>

Provider Name:

Provider Name:

Privilege		
Basic Requirements: Associate, Bachelor or Master's Degree required		
<ul> <li>Minimal formal training: Completion of an ARC-PA approved program (prior to January 2001, completion of a CAAHEP approved program) that included training in the procedures for which privileges are sought; or demonstrated completion of an accredited PA residency program. Current NCCPA certification. Current licensure to practice as a PA issued by the Tennessee board of medicine. Document their certification by their appropriate certifying board. Certification will be verified prior to recommending appointment to the APP staff. Additionally, maintenance of certification is required and will be verified prior to reappointment to the APP staff. Failure to achieve certification/recertification will result in termination of membership and privileges on the APP staff. If requesting procedures, evidence of training and experience must accompany the application.</li> <li>1. Evidence of professional liability insurance (\$1/\$3 million coverage).</li> <li>2. No physical or mental health problems which would prevent the exercise of privileges granted.</li> <li>3. An agreement with a physician who is currently appointed by and in good standing with the Medical Staff of the Erlanger Health System to supervise the physician assistant's practice within the hospital complex.</li> <li>4. Continuing education requirements will be consistent with the certification/recertification requirements, which may vary with the certification.</li> <li>5. BLS is REQUIRED for all APPs and must be maintained.</li> <li>6. ACLS, PALS, NRP per specialty department requirement/job description if working in critical care, cardiology, procedural, surgical or emergency medicine.</li> </ul>		
Core Physician Assistant Privileges:		
Interview to obtain health history	 	 
Record information in patient's medical record	 	 
Perform physical assessments	 	 
Conduct rounds independently of physician but not in lieu of physician	 	 
In consultation with the physician, may discharge the hospitalized patient	 	 
Order and/or schedule (when appropriate) laboratory and/or diagnostic studies	 	 
Evaluate and interpret laboratory and/or diagnostic studies	 	 
Establish medical and/or nursing diagnoses, and implement appropriate plan of care related to	 	 
diagnoses. <b>NOTE:</b> Medical diagnosis and treatment will be per written protocols, which have been agreed upon by both the APP and the supervising physician. A copy of <b>each</b> signed protocol will be kept on file in the physician's private office and may be subject to review by the Medical Staff <b>prior</b> to implementation. Protocols will be used as guidelines, and will not restrict the use of good judgement concerning proper diagnostics and/or therapy. Protocols may be subject to review at the time of reappointment and may be approved by the appropriate Medical Staff committee(s).		
Collaborate with the supervising physician, as needed, concerning appropriate diagnostic studies, medical diagnoses and treatment.	 	 
Provide health counseling and guidance.	 	 
Prescribe and regulate medications per written agreement with the appropriate persons/agencies. A copy of any and all written agreements with any and all person/agencies will be kept on file in the physician's private office. <b>NOTE:</b> Privileges to prescribe and regulate medications will require a certificate of fitness from the State Board of nursing for NP prescriptive rights (obsolete?)	 	 
Collaborate with and assist the supervising physician in the admission of patients to the hospital. <b>NOTE:</b> This does not grant the APP the right to independently admit any patient; admission privileges are granted to physicians (defined in the Medical Staff Bylaws as MD, DO and DDS).

ERLANGER HEALTH SYSTEM REQUEST FOR NEW ADVANCED PROCEDURE FOR ADVANCED PRACTICE PROVIDERS (APPS)		
<b>Policy:</b> Erlanger Credentialing committee and MEC must approve all new procedures requested by an Advanced Practice Provider to ensure clinical appropriateness, training, and competency are involved in order to provide superior safe care to the patients of Erlanger Health Systems.		
<b>Policy:</b> Erlanger Credentialing committee and MEC must approve all new procedures requested by an Advanced Practice Provider to ensure clinical appropriateness, training, and competency are involved in order to provide superior safe care to the patients of Erlanger Health Systems.		
<ul> <li>Philosophy:</li> <li>1. New scopes of service or procedures must be evaluated by the credentialing committee of EHS and approved by the MEC prior to performing to ensure standardization and competency.</li> <li>2. Advancements in technology require enhancements to current procedures as technologies become more available.</li> <li>3. New procedures are defined as those that require a specific and unique technical approach, or have been practiced outside of EHS at a prior institution and not currently performed by any APP on staff.</li> <li>4. The Chief Medical Officer, Division Chiefs, and Medical Executive Committee (MEC) leaders provide input and recommendations during the consideration process.</li> <li>5. Privileging requirements may take a variety of forms including, but are not limited to, specialized certification or specialty course/technical training, proctoring by physicians who are already credentialed to perform the procedure requested, or manufacturer-required training.</li> </ul>		
Scope of Services Summary Development/Checklist		
<ol> <li>Procedure/Service requested</li> <li>APP name requesting to perform procedure</li> <li>Is supervising MD credentialed to perform the procedure</li> <li>Location(s) where procedure will be performed</li> <li>Sage range of population of patients</li> <li>Is the procedure FDA approved or investigational</li> <li>Are new equipment/supplies needed to perform procedure, if so proforma is required and must be attached unless already performed within the system.</li> <li>Are order sets required to implement</li> <li>Number expected to perform annually</li> <li>Number required to obtain competency annually and how was competency obtained (certification, course, proctored)- attach documentation</li> <li>Number required to maintain proficiency</li> <li>Projected start date</li> </ol>
